Fasteners are required to build everything and anything. High-quality fasteners are vital for every application, and especially important to the construction industry, aerospace, automotive, railway, military markets, and engineering sector. As science, materials, and manufacturing make great strides, fastener technology keeps pace with them.

The Indian industrial fasteners market is projected to touch INR 460 billion by 2023 expanding at a CAGR of ~9.6 per cent from 2018. The Indian industrial fasteners market is segmented on the basis of application, product type and the organisation of the market. The Indian automotive sector is expected to be the largest consumer of industrial fasteners by 2023, followed by the construction and the engineering sector.

About the Show

Ace Exhibitions organises **India Fastener Tech Show 2022** this September to facilitate the stakeholders of the fastener industry. The India Fastener Tech Show 2022 is where you can connect with thousands of buyers from across the supply chain and end-user markets. The show offers a platform where you can meet the complete supply chain of the fastener industry. The event is the most apt platform to learn about the latest opportunities in the market, and the updated trends in the industry. This trade show will focus on the major developments in the industry, and will bring together under one roof significant solutions and innovative technologies in the fastener sector.

The three-day event offers an exclusive opportunity for manufacturers, suppliers, distributors and service providers to showcase their latest products and innovations, develop their business and distribution network, and also expand into new markets. The show provides the chance to source products and solutions from across India.
